Drill Hall Investigation Ordered By Ottawa

Early Vulcan Days Recalled By Pioneer Minister

The weekend of June 19th. was an eventful one in the Vulcan United Church, when the Rev. Mr. D. K. Allan was the speaker at the 32nd Anniversary of the dedication of the present Church. Mr. Allan was accompanied by his wife. They spent Saturday afternoon renewing old acquaintances from the days in 1910 to 1916 when they were in Vulcan. They came with three little girls from Tongue Creek in October, 1910. For a while they lived in the apartments of Mr. Lindsay. Then later a little "shack" was built and still later "the Manse," an imposing structure of that time.

Congregations filled the Church for both the morning and evening worship services. In the morning Mr. Allan spoke on "Measuring Lines," showing that standards of measurement are needed for all areas of human experience. The spiritual measurement must be that of Jesus Christ. In the evening he took "Bridges" as his topic. There are various bridges in human relationships: brotherhoods, fellowship groups, neighborliness, etc. The eternal bridge is the love of God revealed in Christ.

On Sunday afternoon about a dozen people, from Vulcan, High River and Calgary, called at the Manse to visit with Mr. and Mrs. Allan, and to renew acquaintances.

An interesting souvenir was brought to the Church by Mr. R. L. Elves. It is a poster announcing one of the first church services conducted by Mr. Allan, dated 1910.

At the close of the evening service, many friends gathered in the Church hall for a social evening. Mr. L. F. Dawson welcomed Mr. and Mrs. Allan on behalf of the "old timers." Tea, sandwiches, and cake were served by members of the Central Women's Association. Then Mrs. Allan was asked to tell about some of the events of their stay in Vulcan. They had come with horse and buggy to Vulcan, and this was their mode of transportation for several years. One big event was the picnic at the Little Bow river, at least in anticipation! In order to find trees for a picnic spot, the Sunday School arranged special excursions on the C.P.R. to Okotoks for at least two summers. The Church services were held in various halls in Vulcan, during the time of Mr. Allan's ministry; names of Elves, Richardson and Shimp were recalled, as owners of the various halls. Social gatherings were well attended. As there was only the one Church in Vulcan then, people of all denominations attended the services of the Community Church. Officially under the Presbyterian Church, a meeting of Presbytery was held in Vulcan, and part of the sessions took the form of an open air meeting on main street. The children "had to go over the hill to the school which was out in the country." (The same school still stands on the edge of town today).

Several of the "newlyweds" whose marriage ceremony had been performed by Mr. Allan were present, and stood to receive congrat-

Order For Full Probe Follows Representations By Local Organizations

The Department of National Defence at Ottawa has instructed the General Officer Commanding Western Command to conduct a complete investigation regarding the Drill Hall situation at Vulcan and submit a full report to Ottawa.

This is the information received in a telegram to the Vulcan Branch of the Canadian Legion on June 25 following representations made to the Department of National Defence a week ago by the Canadian Legion, the Town of Vulcan, the M. D. of Vulcan, the Board of Trade, the Cultural and Athletic Association, the Lions Club and other interested organizations.

Contract Let March 1948

In February, 1947, following meetings with officers of Western Command by the local Citizens Committee and representatives of other organizations, word was received that a drill hall would be erected in Vulcan to provide training facilities for the local unit of the Reserve Army, the Army Cadets and other groups. Following the policy approved by the Army, the building would also serve as a community centre.

In January, 1948, a contract for the construction of a basement for a 50x100 ft. building was let to a Calgary construction company and in March of that year a contract for the moving of the recreation hall from the Vulcan Airport into Vulcan was let to the same company. Funds for the complete interior and exterior renovation of the building were included in the estimates.

Much trouble was encountered in moving the big 50x100 ft. building seven miles across country and not until the spring of this year, 1949, did the building finally reach the completed basement. By this time, unfortunately, the hall was pretty much of a wreck and local organizations felt that it was not in the best interests of the Army or of the town for the contractor to attempt to place the wrecked building upon the foundation. As a result, representations were made to the Department of National Defence to have the work stopped until a complete investigation is made and the reply received that a full investigation by the G.O.C. Western Command has been ordered.

The telegram received on June 25 stated further that the interest of town organizations in this matter was appreciated and the Canadian Legion would be advised of the results of the investigation when the report of the G.O.C. has been received.

Various ones spoke in favor of Mrs. Allan's suggestion that a suitable memorial be erected in honor of the pioneers and founders of the district. Mrs. Allan, in closing, spoke of the splendid spirit of the early people, and the high type of personality which was dominant in the founders of Vulcan. Pictures of these early days were passed around. Mr. Raymond Davis provided some additional to those brought by Mrs. Allan. The happy evening closed by the singing of the Doxology.

Re-elect S.C. Member

E. G. Hansell Gets Big Majority In Retaining Macleod Seat

Vulcan Palominos Take Show Prizes

Leon Bateman's Palomino, stallion "Golden Banner," has been a consistent prize winner at all shows in which he has been entered and at the Lethbridge Exhibition this week won another four awards.

In the class for Palominos, stallion, 2 years or over, parade type, Golden Banner placed second. The beautiful Vulcan stallion also was awarded second prize in the class for Palominos (parade horses), and another second in the Palominos (trail or pleasure horses) class.

Mr. Bateman placed second for the special prize awarded by the Palomino Association of Canada. His horse "Golden Banner" has now been entered in three different exhibitions and has won a total of eleven prizes.

Deans and Love of Vulcan were also winners at the Lethbridge show when their stallion "Allen's Johnnie Horse" placed third in the class for Palominos, stallion, two years or over, stock horse type.

In the class for Palominos, yearling, "Banners Marjohn," owned by Deans and Love of Vulcan, placed first.

The Advocate joins in congratulating these Vulcan residents on the fine showing their Palomino entries made at Lethbridge.

Canada produced \$514 millions of minerals in 1945.

Veteran S. C. Member Receives Biggest Majority Since 1935

Rolling up a big majority of 3,347 votes over his closest opponent, Ernest G. Hansell of Vulcan, Social Credit member of parliament for Macleod since 1935, won a decisive victory in Monday's general election.

With complete returns received from 159 of the 168 polls in this riding, Hansell had received 7,290 votes to Liberal Alfred Lewis' 3,943. Stanley Wyatt, Progressive-Conservative standard-bearer, polled 3,293 votes and the C.C.F. Candidate, J. P. Griffin, trailed with 1,650.

In the 1945 election Hansell polled 6,342 votes, Lewis 2,612, Wyatt 3,942, Woback (C.C.F.) 2,596 and Arland (L.P.P.) 1,613.

Hansell's majority in previous elections was: 1935, 3,541; 1940, 1,826; and in 1945, 2,418.

Commenting on the result in this riding, Mr. Hansell expressed himself as very pleased with the large majority given him and appreciative of the confidence placed in him by the electors.

At Local Polls

Results at the Vulcan poll were as follows: Griffin (C.C.F.) 21, Hansell (S.C.) 281, Lewis (Lib.) 67, Wyatt (P.C.) 108.

Vulcan District: Griffin 3, Hansell 44, Lewis 11, Wyatt 33.

Champion: Griffin 9, Hansell 110, Lewis 41, Wyatt 29.

Carmangay: Griffin 24, Hansell 77, Lewis 25, Wyatt 11.

Barons: Griffin 50, Hansell 104, Lewis 30, Wyatt 37.

Lomond: Griffin 13, Hansell 42, Lewis 17, Wyatt 12.

Alston: Griffin 2, Hansell 11, Lewis 10, Wyatt 30.

Kirkcaldy: Griffin 11, Hansell 42, Lewis 3, Wyatt 10.

Reid Hill: Griffin 5, Hansell 21, Lewis 8, Wyatt 21.

Portland Couple 70 Years Wed

Mr. and Mrs. C. W. Swartz of Portland, Ore., formerly of Vulcan, celebrated their 70th wedding anniversary in Portland, Sunday.

The couple are 90 years of age and still do their own gardening and housework.

Relatives present for the celebration included the eldest son and daughter-in-law, Mr. and Mrs. P. W. Swartz, Mrs. B. Prater of Brant, and another son, Mr. F. L. Swartz of High River.

Boys are more emotional than girls during childhood, according to psychiatrists.

New Highway Not Likely Be Completed This Year

Work Ends South of Champion and At Corner Store

Information brought out at the regular Vulcan District Board of Trade meeting held in the Legion hall Thursday evening, June 23, is to the effect that Vulcan will remain isolated, insofar as a decent provincial highway is concerned, for at least another year.

The road now being constructed from Monarch north will end a mile south of Champion. No further work on this south end of the road is planned this year, according to reports. Contracts have been let for grading and graveling of the Sunshine Trail from High River east to the Corner Store. No construction work on that part of the highway between Champion and the Corner Store is contemplated this year, so far as can be learned, leaving a stretch of road 12 miles north and 18 miles south of Vulcan to be done next year.

Hon. Peter Dawson, M.L.A. did not attend the meeting. A letter from the Provincial Highway Commissioner advised that contracts had been let for the highway east of High River and enclosed a map showing the route to be followed between Champion and Vulcan.

Revised Route

The revised route eliminates the railway crossing a mile south of Champion, with the new route passing west of Champion and following the west side of the railroad track to a point just south of Kirkcaldy, where it crosses to the east side of the tracks, goes straight north for two miles, and then follows the east side of the railway until it joins the present highway at the point where it turns straight east of Vulcan.

The route out of Vulcan is not specified, but it is presumed that the old No. 23 highway from Vulcan 12 miles north to the Corner Store will be followed.

Postal Service

A letter from the Postmaster General's Department advised that there was not sufficient volume of mail on this line to justify mail car service, but that a survey would be made with a view to improving service. One outcome of this might be that a direct mail service with Barons, Carmangay, Brant and Blackie might be instituted, eliminating the present method of letters for these points going to Lethbridge or Calgary and then back to their destination.

Nanton-Little Bow Road

A resolution was passed asking the Nanton Board of Trade to urge the Highwood Municipality to put the road from Nanton to the Little Bow River into shape and to maintain it as an essential market road.

Report Given

M. R. Morrison president of the

Successful

LOUIS ST. LAURENT

Liberals Roll Up Crushing Majority

The Liberal party, led by Prime Minister Louis St. Laurent, rolled to an impressive victory in the June 27 general election, gaining the unprecedented total of 193 seats out of 262 in the House of Commons.

The C.C.F. party was reduced to minor status in the Liberal landslide as they dropped from 32 seats to 12 for a loss of 20. George Dr. W's Progressive-Conservatives who will form the official opposition, emerged with only 42 seats, a considerable loss from the 69 seats they held at the dissolution of parliament.

The Social Credit party held ten seats in Alberta, dropping two in their pre-election 12 seats to 10. Liberals, Four Independents and one Independent-Liberal make up the balance of the opposition in the 262 seat House of Commons, with the Liberals having an impressive parliamentary majority of 124 seats.

Over six million Canadians, a record number, cast their vote in Monday's election, with the Liberals gaining almost fifty percent of the popular vote, the Progressive-Conservatives over thirty percent, and C.C.F. over 13 percent.

Tim Buck, Labor-Progressive leader and all 17 of his candidates, were defeated.

Board of Trade, gave a report on the recent convention of Alberta Boards of Trade and Agriculture, held at Red Deer, and read the resolutions passed by the convention.

Little Bow Women's Institutes Meet At Vulcan Conference

65 Delegates Hear Reports on Work During Past Year

The 31st, annual conference of the Little Bow Constituency was held at Vulcan, on Friday, June 24, at the Church of Christ. There were approximately sixty-five in attendance.

The theme, "Hang Your Wagon to the Star of Co-operation."

Mrs. R. A. Clements, constituency convener, was in the chair with Mrs. A. W. Maisey acting as secretary. The meeting opened at 10:30 with O' Canada. A salute to the Flag was given by Mrs. Orchard of Thigh Hill Institute. Miss Ware lead the devotional period, after which all joined in repeating the creed.

Minutes were read and approved of the 1948 Conference, followed by the financial statement of 1948 and 1949.

Mrs. A. R. Mainland of Thigh Hill read the publicity report.

Resolution Committee included Mrs. Agnes MacKay of Reid Hill and Mrs. Robert Irwin of Good Deeds while on the courtesy committee were Mrs. Kotkas, Barons, and Mrs. Voisey of Champion. The nominating committee included Mrs. Montgomery, Good Deeds; Mrs. Roy Deal, Thigh Hill, and Mrs. R. Walker of Reid Hill.

The afternoon session was called

to order at 1:30 p.m. Beautiful corsages of roses were presented to Mrs. McIlroy, District Director No. 4, Mrs. Clements, Mrs. Maisey, Mrs. Hobbs, Mrs. King, Miss Nor-

(Continued on Page 2)

Crop Prospects Bright As Rain Soaks District

A heavy shower on Sunday, June 26, brought .32 of an inch of moisture to the district. Skies again became cloudy on Wednesday and following light precipitation in the forenoon and early afternoon a heavy downpour was experienced for over two hours in late afternoon, the rain gauge registering .73 of an inch for the day.

Wednesday's rain was fairly general over this part of the province, and with a total of 1.05 inches of rain received this week crop prospects are bright.

The biggest problem facing farmers in this district this year has been weeds, with conditions this spring encouraging a late and heavy growth. 2, 4-D sprays have been in good demand and considerable acreage in the district has been sprayed by air.

Other Candidates in Macleod Riding

ALFRED G. LEWIS
Liberal candidate and runner-up, who received 3,943 votes.

STANLEY WYATT
Progressive-Conservative candidate, received 3,293 votes.

JACK GRIFFIN
C.C.F. standard-bearer, who polled 1,650 votes.

That Highway—Still in the Future

Vulcan residents bound for Calgary or Lethbridge can expect their cars to take a beating for another year. They can also be prepared to stay at home when heavy rains or spring thaws make all roads except a hard surface or well gravelled highway impassable.

And all the kicking and complaining in the world won't likely change the situation, for the provincial election is long past and the promises of government officials that residents of this district could expect a decent highway in 1949 are not worth the effort it took to form them into words. Information gained from reliable sources, plus the obvious facts, make it appear that Vulcan will be left sitting in the middle of thirty miles of nothing—the nothing being the provincial highway for 12 miles north of Vulcan and 18 miles south.

Contracts have been let for the grading of the highway from High River east to the Corner Store and tenders are now being called for the graveling of this stretch. But at this date nothing has been said about any work from the Corner Store south this year. From the south end, the highway is being graded and gravelled to a point a mile south of Champion, and there construction work stops.

The route from Vulcan—north and south—has been planned, but the tracing of a route on a map won't give residents of this town and district a decent highway for their travels.

The excuse has been given that available machinery is needed for urgent road work in other parts of the province. It appears to us the providing of an all-weather road for the towns of the Aldersyde

line should be considered as urgent, and that this "stop and start" policy of highway construction can hardly be considered good business.

Maybe the highway will be completed next year—if something more "urgent" doesn't come up. Maybe we won't have to depend on the municipalities to keep the roads between Vulcan and Nanton gravelled, maintained and snow-plowed in winter so we can get to Calgary. Maybe when we get that nice new highway we'll forget the years of pleading and petitioning it took, and the "run-around" we were given. Maybe.

Farmers and Inflation . . .

During, and immediately after, World War I, farmers saw prices double and got quite excited about it. Then the first deflation boom came in 1920 and farm prices led the procession downward just as they had led it up, and again they went faster and farther. This downward spiral of farm prices was years ahead of the decline in farm costs. Not until the depression of 1929 did some of these costs really begin to drop.

During the twenties farm taxes got as high as two and a half times prewar, steady wage rates two and a quarter times, freight rates and farm machinery charges two-thirds above pre-war. When these costs did finally level off, they did so significantly above the prewar level.

Between 1923 and 1932 at least one in every five farms changed hands through bankruptcy in the United States. The value of farm land went up from \$58 in 1916 to \$90 in 1920. In Iowa improved land that was valued at \$134 an acre in 1915 reached \$255 by 1920. In the years after 1920 farm land values not only dropped as much as they had risen during the war, but they dropped on an average of 27 percent below prewar value. Yet farmers had to pay debts and taxes and interest, and other charges on the basis of land values nearly double the prewar level.

What happened in the United States was doubled in Western Canada. During World War II and the years succeeding the end thereof, efforts have been directed to modify the effects of inflation. Many farmers, it would seem, have learned their lesson.

At the end of 1948 the total amount owing in farm mortgages and agreements of sale in the three prairie provinces, as reported by 54 loan companies, was \$36 million as compared with \$186 million in 1937. In Alberta the total was \$3.7 million as compared with \$39.7 million in 1937. —Brooks Bulletin.

Letter to the Editor

IN REPLY TO LETTER OF DISGUSTED STUDENT

Vulcan, Alta
June 25, 1949

Editor, The Advocate.

Dear Sir:

I am very, very pleased to see one of Vulcan's youth honest and courageous enough to see truth and speak it.

This was my first year in Vulcan. It is also my last. Many of the people have been very nice and I hope I have made a lot of friends. Some of the people in your town are not nice people. As a comparative stranger in Vulcan, I see many things in your town which you, being used to, overlook.

I see a new plumbing system, a very fine swimming pool, an up-to-date hospital (which is run very efficiently and can do without all the adverse criticism thrown at it), two fair schools and of course one hulk.

Something else I see that perhaps you don't see is the attitude of some of the people, a great number of the people, to be exact. It is a meddling, gossiping and destructive attitude rather than a helpful, understanding and constructive one. No one of us is perfect, not you nor I. But we all can be helpful and realize our own faults as well as the faults of others.

Three of your favorite stamping grounds are the most important institutions in your fair city. They are the church, the school and the hospital. If you are to survive they must survive also.

Anyone can find fault and lots of us do. You all know the psychology behind gossip, don't you? In case you don't, here is a brief

outline.

"Gossips are people who talk about other people to bring them down to their own level and in some cases raise themselves higher than the poor victim. A gossip is someone who has something to hide and he or she is also a very jealous person."

You know the gossips of your town (not only the present residents but those who have lived here and carried their "choice bits" all around Calgary and other districts).

Beware of them; put them in their place. If necessary, ostracize them.

Vulcan is a good town but it needs a good cleaning out. The youth of your community can see it; strangers can see it, and I truly hope you can see it.

Respectfully,

F. K. McKAY, JR.

W. I. Conference

(Continued from front page)

ma Jean Hogg, Home Economist of Calgary, and to Miss Chell, who is visiting here from England.

Reports were read at the afternoon session by the constituencies' standing conveners as follows. One on 'Agriculture and Canadian Industries' by Mrs. P. Patterson of Champion; Health and 'Education' by Mrs. Joe Main, Kirkcaldy; read by the secretary; Report on 'Citizenship' by Mrs. McMasters of Good Deeds; 'Social Service' report by Mrs. Kotkas of Barons; 'Household Economics' by Mrs. R. Walker of Reid Hill and a report on 'Handicraft' and Girls' Club report by Mrs. Flitten of Kirkcaldy. This newly organized Girls'

Club boasts a membership of 15 girls and several more joining, at the next meeting. Mrs. Flitten and Mrs. Wayne Anderson are the Club leaders.

Miss Chell, at present visiting relatives in Vulcan from England, was a guest speaker and greatly enjoyed. She spoke of the women's organizations in England similar to the Women's Institutes in Canada, food rationing, clothing and suitable foods to be included in parcels being sent overseas.

Miss Margaret Fuller, pianist, sang two beautiful solos, while Mrs. Flitten gave two readings during the session which were greatly appreciated. Community singing was also enjoyed; Miss Betty Hiltz also rendered two beautiful solos.

Mrs. McIlroy, district director, No. 4, brought greetings from the Provincial president, Mrs. A. B. McGorman, of Penhold, who was unable to attend. Mrs. McIlroy gave an informative address to the Institute members on various phases of Institute work.

Mrs. Voisy, on behalf of the six branches, presented Mrs. Clements, the retiring constituency convener, with a beautiful table lamp in appreciation of her untiring efforts during her four years in office.

Mrs. A. W. Maisey was elected as constituency convener for the ensuing two years. Mrs. Patterson of Champion and Mrs. McMasters of Good Deeds were returned by acclamation to continue as conveners of Agriculture and Canadian Industries and Citizenship, respectively.

Mrs. Patterson graciously invited the branches to hold their next conference in Champion.

Miss Norma Jean Hogg, Mrs. King and Mrs. Hobbs acted as judges of Handicraft. Miss Hogg gave a few interesting items on judging of articles. Prizes were won as follows. First prize for housewren, Mrs. McMasters; first prize for a knitted baby set, Mrs. Pat. Roe, Mrs. Hawkins won first prize and Mrs. Dale Campbell, second prize for a luncheon set.

Mrs. Henry Todd won third prize for a novel soap holder. There was a fine display of handicraft, including a table of articles of very old fancy work, and a fine exhibit of leather craft, displayed by Miss Chell, of her own work.

Mrs. Kotkas on behalf of the courtesy committee moved a vote of thanks to the ladies who brought beautiful flowers, to the secretary, the hostess Institutes, Vulcan Advocate, judges, entertaining artists, Mrs. McIlroy, Mrs. Clements, Miss Chell and everyone present who helped to make the conference an outstanding success.

The conference closed by singing God Save the King, after which a most delicious luncheon was served to the W. I. members and guests in the church basement.

TENDERS

SEALED TENDERS, addressed to the undersigned and marked, "Tender for Additional Development of Vulcan Aerodrome", will be received up to 12 o'clock noon, E.D.S.T., Wednesday, July 6, 1949, for Surface Treatment of runways and connecting taxi-strips at Vulcan Aerodrome, Vulcan Alberta.

Plans, specifications, labour conditions, form of contract and tender forms may be obtained on application to the Chief Purchasing Agent, Department of Transport, Ottawa, Ontario, or from the District Airway Engineer, Department of Transport, 302 Blowey Henry Building, Edmonton, Alberta, upon receipt of an accepted cheque made payable to the Receiver General of Canada for the sum of \$10.00. This cheque will be returned upon the return of the plans and specifications in good condition.

Each tender, must be accompanied by a certified cheque on a chartered Canadian bank equal to ten per cent (10%) of the tender price, payable to the order of the Receiver General of Canada, which cheque will be forfeited in the event of a tenderer refusing to enter into a contract on the basis of his tender, if called upon to do so, or failing to satisfactorily complete such a contract. Cheques of unsuccessful tenderers will be returned.

Any tender not accompanied by a security deposit as described will not be considered.

The Department does not bind itself to accept the lowest or any tender.

F. T. COLLINS,
Secretary,
Department of Transport,
Ottawa, Ontario, June 15, 1949.

Mrs. Uretta Melver, Manageress

Leonard Nesbitt's Book On "Story of Wheat"

Agriculture is the most important single industry in Canada and wheat production is its main basis. About 90% of the annual Canadian wheat crop is produced in the Prairie Provinces. Comparatively few Canadian people however, have a comprehensive understanding of the wheat industry. In an effort to meet this situation the Alberta Wheat Pool has published a booklet entitled "The Story of Wheat" written by Leonard D. Nesbitt, which compresses an immense amount of information within 55 pages.

Revision of Earlier Edition

This is really a revision of an earlier edition published under the same title some three years ago. Within those three years there have been many important happenings in the world of wheat and these are dealt with concisely and lucidly.

While "The Story of Wheat" deals particularly with wheat growing and agriculture in general in the three Prairie Provinces of Western Canada, it includes much information gathered from many sources and dealing with the wheat industry in many other nations. People who are interested in the wheat industry and particularly teachers and students, will find this publication an invaluable source of reliable information.

Improvement of Wheat Quality
The first chapter deals with the

importance of agriculture and wheat growing in Canada. A brief reference is made to the origin of wheat in the lands bordering the eastern Mediterranean. The importance of wheat in the human diet is explained and reference is made to improvement of wheat quality and wheat varieties through scientific effort over long generations.

Chapters on flour milling and bread making bring the reader up to date on those important industries. The process of farm mechanization which has revolutionized the agricultural industry is dealt with in another chapter.

While agriculture in Western Canada has not had a very long history, there are many interesting facts connected with its development which are unknown to most of the present generation. These are well brought out in several chapters.

Here is a wealth of information regarding the weather in the west, soil conservation, railway and water transportation. Precise information is given about the handling, selling and grading of Canadian wheat, and the duties of the Board of Grain Commissioners. The operation of the speculative market are described together with criticisms of the same by farmers and farm organizations.

History of Pools & Wheat Board
Several chapters cover the his-

tory of the Wheat Pools from 1930 to 1935, and the history of the Canadian Wheat Board from its formation in 1935 to date.

The British Wheat Agreement is explained, and also an outline given of the efforts to make an international wheat agreement. The world food situation is dealt with in one chapter, and this provides facts and figures which informed people should have at their finger tips. The concluding chapter deals with Canadian farm policy and it provides lot of food for thought.

"The Story of Wheat" compacts a great deal of information into a comparatively few pages. The results of research into many "dry" documents, and extensive knowledge gained in Mr. Nesbitt's own long career of service in the farm movement are presented in most interesting fashion. The booklet reflects great credit upon the author and upon the publishers. It is a most convenient reference publication and should be widely read. —(Western Farm Leader).

BUILD UP A RESERVE OF SOIL MOISTURE BEFORE TREE PLANTING IS ATTEMPTED

Over a wide section of the Prairie Provinces the spring of 1949 will be remembered as one when surface moisture was inadequate and subsoil moisture far below normal for best development of crops and the establishing of trees. The usual procedures of sowing grain and planting trees have been completed by people with faith and confidence in the forces and environment which stimulate plant growth, says John Walker, Superintendent, Forest Nursery Station, Indian Head, Sask.

In few seasons has the need and value of summerfallowing for the purpose of building up a reserve of soil moisture been more acute and important. In this circumstance the wisdom of departmental policy whereby prospective planters must have well summer-fallowed land in which to plant trees seems fully justified.

A reserve of soil moisture is not only the best assurance that a vigorous root system and strong top growth will develop on young trees, but by it the young trees will be enabled to survive dry summer periods with a minimum of loss or injury.

Now is the time to complete plans for conserving the greatest amount of soil moisture in the area selected for that new shelter-belt. In the drier areas surface tillage of land that has been under cultivation for some years may be more desirable than deep plowing. No weed growth should be allowed to utilize any plant food or moisture from the soil, and, towards the fall, the area may with benefit be lightly mulched with rooted manure or chaffy straw to help in reducing evaporation of moisture by wind and in holding snow on it in winter. There is little danger of the soil containing too much moisture.

Summer Camps For Reserve Army

Practical summer training for Alberta and British Columbia Reserve Force Units is to be carried out at four western camps and plans are now complete for the busiest summer camp season yet to be carried out by Western Command.

With dates of camps finalized and locations arranged, every branch of the army is to receive interesting and intensive field training with ample special equipment at hand. All of the Western Command units, with the exception of some artillery units, will proceed to camps in either Alberta or British Columbia. Two field artillery Regiments, the 15 Field Regiment (SP) of Vancouver and the 18th Field Regiment of Lethbridge are to camp at Shilo, Man. 3 to 9 July. Calgary's 19 Medium Regiment will go to Shilo 17th to 23 July. The 41 Anti-Tank Regiment (SP) is to train at the Manitoba Camp from 3 to 9 July.

Largest camp to be held by Western Command will be the general camp at Wainwright between 3 and 16 July. All corps with the exception of artillery and engineers will carry out practical training in the 96,000 acre training area 150 miles east of Edmonton. Both corps and unit training is in the plan for infantry, armour, signals, medicals, ordnance, army service and electrical mechanical engineer corps.

Wainwright's annual gathering of reservists is being planned on the largest scale since the end of the war. It is expected that about 1,000 officers, non-commissioned officers and men will take reserve force training.

Two British Columbia camps will handle the training of specialists in engineering and anti-aircraft subjects. Heavy and light anti-aircraft regiments will carry out firing and field training at Esquimalt near Victoria 3 to 9 July and 17 to 23 July. Royal Canadian Engineers are to take their specialist training at the Royal Canadian School of Military Engineering, Chilliwack, from the 3rd to 9th July.

Roll Steel For Oil Pipe Line

Production of 67,000 tons of steel plate will begin at Hamilton this week and it is expected some time next year the steel will lie buried beneath the rich earth of the western prairies.

The Steel Co. of Canada is making the plate, Page-Hersey Tubes will fabricate it into 16-inch pipe, and Imperial Oil plans to use the pipe for a 450-mile line to carry Alberta oil towards wider markets. Total cost of the project is estimated at \$35 to \$40 millions.

This is a first step in making western Canadian oil available over a much wider area, for large pipe lines carry oil in volume at lower cost than any other means of land transportation. It is needed because Alberta oil production is now so high that new and larger markets must be reached to permit wider benefits from recent oil discoveries.

Already Alberta oil has meant lower cost petroleum products in many parts of Alberta, Saskatchewan and Manitoba, where it has backed out U.S. imports.

The plate order for the pipe line is the largest Stelco has ever received and represents one-tenth of their annual ingot capacity. When in full production 200 carloads of finished plate will be shipped each month.

SALE Of Farm Equipment

Having sold my farm, I am selling the following equipment:

1947 John Deere Tractor with self-starter and power takeoff.
12 ft. John Deere No. 9 Combine w/ pickup.
21 ft. John Deere Disc Harrow.
9 ft. John Deere Tiller.
18-run Double Disc V. R. Press Drill.
12 ft. John Deere Tool Bar Cultivator.
12 ft. Cheney Rod Weeder.
30 ft. Diamond Harrows.
10 ft. Rotary Harrows.
20 ft. Grain Elevator.
3 h.p. John Deere Engine.
Platform Oil Wagon.
Tire Pump.
3-burner Oil Stove.
1 Bunk Car, 2 Beds, Stove, etc.
Gas Pump and 3 Grease Guns.
1 Lifting Jack.
Grease Gun Filler.
1935 FORD V-8 1 1/2 TON TRUCK.

All this equipment is in good shape.

ALBERTA WHEAT POOL PATRONAGE

The Alberta Wheat Pool hereby advises its members that it intends to operate for the crop year 1949-50 on a patronage dividend basis, in keeping with the co-operative principles on which the Pool was formed. The following notice is published in compliance with the provisions of the Income Tax Act:—

As required by the Income Tax Act, our members are hereby advised that in accordance with the terms and conditions and within the times and limitations contained in the said Act, it is our intention to pay a patronage dividend in proportion to patronage out of the revenues of the 1949-50 crop year, or out of such other funds as may be permitted by the said Act, and we hereby hold out the prospect of the payment of a patronage dividend to you accordingly.

Imperial Oil Announces PRICE REDUCTION ON DOMESTIC HEATING OILS and DIESEL FUELS IN Manitoba, Saskatchewan, Alberta

Home owners, farmers and ranchers in the three Prairie provinces will immediately benefit from the new price reduction announced by Imperial Oil. For those who have been holding off buying oil heating and oil cooking equipment, this price reduction makes such an investment a wise and attractive one. New comfort and efficiency follow with the installation of oil burning equipment.

Farmers and ranchers too will experience new convenience by installing oil burning cooking stoves, space heaters, hot water heaters, stock trough heaters, chicken brooders and other oil burning equipment.

Your oil burner and space heater dealers can provide you with installations and new equipment. Ample supplies of heating oils and diesel fuels are assured by Imperial Oil Limited.

Champion

The Leader Shows and Circus attracted a large crowd on Tuesday and Wednesday of last week. The merry-go-round, ferris wheel and boat rides were enjoyed by young and old.

Mr. and Mrs. Geo. Wright, accompanied by Mrs. R. Maxwell and daughters, were Calgary visitors on Saturday.

Mrs. F. Fleming, Jr. and Miss Yvonne Long entertained recently at the home of the former, complimentary to Miss Patricia Watts. About 34 young people were present. Games, contests and sing song was enjoyed during the evening. A delicious lunch was served by the hostesses.

Mr. and Mrs. J. McIntyre were Lethbridge visitors on Wednesday of last week.

Mrs. Ken. Bloxham and three children are visiting in Calgary for a week with the former's mother, Mrs. Geo. Taylor.

Mr. D. Greenlee was a business visitor in Lethbridge on Thursday of last week.

Members of the Women's Institute entertained on Wednesday afternoon, June 22, at the home of Mrs. F. Watts in honor of Mrs. Art. Hopkins, who is leaving Champion shortly. After a social afternoon Mrs. P. Patterson, on behalf of the members, presented the honored guest with a beautiful cup and saucer. Lunch was served by the ladies.

Leonard Rhodes is a patient in the Galt Hospital, Lethbridge, having undergone an emergency appendectomy on Thursday of last week.

Mr. and Mrs. J. Weir of Balzac are guests at the A. Orcutt home, while visiting with their son and daughter in law, Mr. and Mrs. T. Weir.

The Women's Association entertained Wednesday afternoon, June 22, at the home of Mrs. L. Latiff, complimentary to a valued member, Mrs. Geo. Orr, who expects to be leaving Champion in the near future. After a social afternoon, Mrs. R. Helund presented the

honored guest with a gold compact from the members. Refreshments were served by the ladies. Continuing the round of entertainment for Mrs. Orr a "no hostess supper" was held at the home of Mrs. P. Dawson, Friday, June 24. Jim Leong, who arrived by plane recently from Canton, China, will make his home with his father Wing Leong, proprietor of the B.C. Cafe.

Word has been received recently of the birth of a 7½ lb. baby daughter (Glenda Mary) on June 1, in the High River Hospital to Mr. and Mrs. Wm. Fleischman (formerly of Cnnapion). Congratulations.

At Stavelly recently, Mrs. W. Keenan of Champion won a special nine hole golf competition and also won the regular nine-hole competition for ladies.

At Barons on Sunday, Champion took the short end of a 19 to 15 score ball game.

Mrs. F. Sadler is visiting with her son-in-law and daughter, Mr. and Mrs. H. Birkness at Armada, during Mr. Sadler's confinement to the Carmangay Hospital.

At the ball game between Nanton and Champion held Friday evening, June 24, on the local diamond, F. Bouzyan, manager of the

Champion Club, presented Fred Watts, for many years catcher for the team, with a very fine English split Bamboo Fly Rod, reel and line from the Club. Mr. Watts in response thanked his teammates and spoke of the fine cooperation and harmony in the club that he had always enjoyed. The Watts family was also presented with a purse of money (\$61) that had been contributed by their friends toward the community gift, part of which (a lounge chair and ottoman) had been presented at a community gathering earlier in the week.

Owing to darkness the Champion-Nanton ball game was called at the end of six innings with Champion winning 15 to 1. Bud Siler pitched the first inning and was unable to continue, having pulled a muscle in his left leg. S. Passoli, as a relief pitcher, hurled a splendid game.

While visiting with his daughter in Bellevue, Alta. Mr. R. Gardner was taken ill, and has been a patient in the Bellevue hospital for the past three weeks.

Mr. and Mrs. H. Lebsack, Mr. and Mrs. C. Lebsack and Mr. and Mrs. T. P. Carlson are visiting in Banff for a few days. On their return they will be accompanied by Mr. and Mrs. E. Repp of Calgary.

A group of ladies attended the W.I. conference held in Vulcan on Friday, and report an enjoyable afternoon.

The Felicity Club met at the home of Mrs. E. Ohlweiser, recently. Seventeen members enrolled for the new year and two visitors were present. Plans were completed for the Club picnic to be held July 5, at Park Lake. A new idea was started in the club. A slotted box is set in a conspicuous place, where each member may enter news items which will be handed over to the Advocate Correspondent after each meeting. Mrs. Earl Smith conducted a song contest. Winner was Mrs. Les. Christenson. A lovely lunch was served by the hostess, assisted by Mrs. W. Griffin. Mrs. Christenson also won the raffle. The next meeting will be held at the home of Mrs. D. Davies.

Mr. and Mrs. R. Schultz were Lethbridge visitors on Tuesday of last week.

Mr. and Mrs. J. Ellis and small daughter were Calgary visitors last weekend at the home of the former's mother, Mrs. W. Ellis.

Mr. and Mrs. K. Alder spent several days in Edmonton—last week.

Miss Ida Davies of Calgary was a guest at the home of her parents, Mr. and Mrs. D. Davies last week, and also attended the shower for Miss A. Maxwell.

Mrs. A. Russell of Lethbridge is a guest at the home of her sister, Mrs. O. B. Smith for a few days. Lorne Smith left for Salt Lake, Utah, on Saturday, where he will spend some time prior to going to Toronto on a Latter Days Saints mission.

Mr. and Mrs. G. Halvorsen of Coaldale were weekend guests at the home of Mr. and Mrs. A. D. Bjornson.

Mrs. W. Truesdale and son Bill were Calgary visitors on Monday of last week.

Laverne Greene of Calgary was a guest at the home of Mr. and Mrs. R. Davies over the weekend. The United Church Sunday School held a picnic on Sunday, June 26 at Park Lake.

Mr. and Mrs. G. McLean and son of Calgary were recent visitors at the home of the former's parents, Mr. and Mrs. C. McLenn. Mr. and Mrs. A. Nelson, Mr. and Mrs. L. Warren and daughter Ruth, left last week on a five weeks' visit, to be spent in Ontario and points in the U.S.

Mr. and Mrs. J. C. Anderson and Brian were visitors in Calgary to celebrate the former's mother, Mrs. Nels Anderson's 87th birthday on June 24. Mrs. Anderson was a former old timer of the Champion district.

Mr. and Mrs. W. Keenan and Mr. and Mrs. J. McIntyre were Lethbridge visitors recently.

Mrs. D. Forsyth and children, Bobbie and Mary, of Caroline are spending a few weeks at the home of the former's brother-in-law and sister, Mr. and Mrs. Morgan Smith.

Mr. and Mrs. A. C. Little have returned home, the former having been a patient for the past month in the Claresholm hospital while Mrs. Little has been a patient in the Holy Cross Hospital for the same period of time.

At the regular meeting of the Lions Club held on Monday, June 27, F. Watts, a charter member of the Champion Club, was presented with a Ronson lighter and kit, prior to his departure for Pincher Creek.

Mr. and Mrs. Fred Watts and family left on Wednesday for their new place of residence at Pincher Creek.

Stanley Matlock of Crossfield has recently purchased the W. I. Harris Electrical Appliance Shop, and with his family will take up residence in the suite over the store.

Miss Eva McDonald of Edmonton is a visitor at the home of Mr. and Mrs. George Moses for a few days.

Mrs. A. Kurtz and daughter are guests at the home of the former's parents, Mr. and Mrs. J. Klein.

Mr. and Mrs. D. Ruggles and

UNIQUE AND UNUSUAL MILITARY EXHIBITS

A museum collection that is very much out of ordinary is being assembled in London at the Imperial War Museum. It is made up of news sheets produced by soldiers all over the world in both wars. It is the only collection of its kind. The thousands of exhibits already assembled include handwritten sheets issued each day in German prison camps and secret journals distributed by members of resistance movements at the risk of their lives. They give a vivid impression of the drama, humour, boredom and indomitable courage of soldiers in all phases and conditions of warfare.

QUICK DEATH TO INSECT PESTS

STANCO LIVESTOCK SPRAY and 25% Imperial DDT are economical and effective. With these sprays you can end the losses caused by flies and other insect pests.

STANCO is a repellent spray ready to use. Just fill your sprayer and you can treat your cattle, horses and hogs to comfortable days and restful nights. No more terrorizing by flies, no more stampeding. Stanco gives 24-hour protection, is non-injurious to your livestock and does not stain. It more than pays for itself by cutting down milk and flesh losses caused by insect pests.

25% IMPERIAL DDT CONCENTRATE kills flies on contact. It is ideal for use in stables, dairy barns, hog pens and poultry houses. Sprayed on walls and ceilings it ends the fly problem, the menace to health and production. It's economical to use, too. For power spraying you only use 1 part concentrate to 125 parts water, or about 2½ table-spoons in a gallon. For hand spraying you double the strength. For walls and ceilings, a gallon of concentrate makes 5 gallons of spray. It does not stain and is sure death to every fly and insect that lights on it.

Carmangay

The members of the Women's Association met at the home of Mrs. G. H. Nelson on Thursday afternoon with thirteen members and six visitors present. The devotion was read by Mrs. W. Soderquist. It was decided to give twenty dollars towards sending Miss Nugent, the C.G.I.T. leader, to Red Deer to attend the Training School. Seventy-five dollars was given towards the minister's salary. Mrs. W. Jensen won the raffle. A dainty lunch was served by the hostess. The next meeting will be at the Hillard home.

Mr. and Mrs. Bright Robertson, Mr. and Mrs. J. Hauser and family, Mr. and Mrs. J. McFarland and son, and Mr. L. Burke and Dennis went on a fishing trip over the weekend south-west of Pincher Creek.

Mr. and Mrs. D. H. Russell left by car on Tuesday to visit with relatives in Michigan and Eastern Canada.

Mrs. Geo Hardy left on a trip to Ontario to visit with relatives.

Lethbridge visitors on Friday included Mr. and Mrs. E. Stettner, Mr. and Mrs. E. Lacro, Miss Joy Stettner, and Mr. E. Lacro Jr.

Mr. P. Fowler is spending his holidays at the home of his sister Mrs. W. Schoonover.

A spiced team of boys and girls from grades III and IV motored to Champion on Friday for a game and defeated the Champion team by a score of 29-9.

Mr. and Mrs. Roy Church had as their guests this weekend Mr.

and Mrs. Illsey and Miss Grace Church from Youngstown.

Mr. and Mrs. Ralph Berlin from Claresholm were guests at the home of Mr. and Mrs. Vilas Teskey.

Mrs. Lethrie Burke and Raema and Roger were Champion visitors over the weekend.

Mrs. J. Hauser and Mrs. Rena Burns entertained at a tea at the home of Mrs. Hauser on Friday afternoon to honor Mrs. A. F. Wilson. Games were played and a delicious lunch was served followed by a presentation of a tatted dolly to the honored guest.

Mrs. Parham and two children and her mother Mrs. Dockery, all from Long Beach, California, are visiting at the home of Mr. and Mrs. W. Soderquist. Later they will motor on to Edmonton to visit with Mrs. Dockery's son, Jim.

Theresa and Lawrence Hauser arrived by car on Friday from Vancouver and will spend the summer with their parents, Mr. and Mrs. Frank Hauser.

Mr. and Mrs. V. Needham and Mr. and Mrs. K. Miller returned from their motor trip through the Yellowstone Park and reported a very enjoyable time.

After waiting on several rain showers on Sunday, the Carmangay baseball team defeated the Brant team by a score of 10-5.

Mr. and Mrs. Aylmer Gloor and family and Miss Leona Rosenkranz left for Eastern Canada by train and will return, after purchasing a new car by travelling through the States.

Dugout For Domestic Water Supply Popular

(Experimental Farms News)
The use of dugouts for domestic water storage has become increasingly popular, says H. D. Ayers, Dominion Experimental Station, Swift Current, Sask. This is particularly true where suitable supplies of ground water cannot be obtained at shallow depths. In order to control the chemical and bacterial quality of the water, the following points must be considered:

Dugout Protection. The dugout must be tightly fenced to keep out all domestic animals and fowl. The dugout must be protected and situated so that all possible pollution is prevented from contaminating the dugout water.

Water Treatment. The use of a sand and gravel filter in the bottom of the dugout has provided a satisfactory means of filtration. The recommended type of filter consists of a 3-foot depth of clean well graded sand contained in a wooden box 10 feet long, 5 feet wide, and 3 feet deep. The sand is underlaid by a 1-foot layer of clean uniform one-eighth to one-quarter inch size gravel. The top of the sand is protected by stones of 2 to 4-inch diameter. The box is located at the toe of the inside slope of the dugout with the bottom two feet below the dugout bottom. It is completely enclosed except for an inlet pipe and a discharge pipe. The inlet pipe should be finely screened at its inlet, and should be laid from the bottom of the filter to a well at least 10 feet from the edge of the dugout. Standard 2-inch water pipe is satisfactory for this purpose.

LARGEST BIG GAME PRESERVE COVERS VAST AREA

Wood Buffalo Park, situated partly in the Province of Alberta and partly in the Northwest Territories, is the largest big game preserve on the North American Continent. It has an area of 17,300 square miles, 13,675 of which are in Alberta. Established primarily for the protection of a herd of buffalo, it now contains many other protected species of big game and fur-bearing animals.

Total area of the Northwest Territories is 1,394,903 square miles, or more than one-third of the total area of Canada. The Territories contain the land area of Canada north of the 60th parallel between Hudson Bay on the east and Yukon Territory on the west, and also the islands lying between the mainland of Canada and the North Pole.

PRESERVING CRAFT OF MAKING GOLD COINS

The Royal Mint in Britain is making 100 thousand sovereigns which will never be used as money. They will remain as part of the nation's gold reserve and will not be issued to the public. These gold coins are being struck for a very special purpose: to preserve the inherited knowledge of craftsmanship in making gold coins. The craft of gold coining requires a different technique from that used for other metals.

Some people are born great, others make themselves great, and the rest of 'em grate upon others.

Well. The well provides storage for filtered water and must be constructed to conform to the sanitary requirements of public health regulations.

Control of Vegetation. Growth around the edge of dugouts should be limited to short grass. Deciduous trees should be planted no closer than 100 feet from the dugout. It has been found that decaying organic matter in the dugout results in carbonate hardness and soluble iron in large quantities in the water supply.

Watershed Protection. Since the dugout is filled only during the period of spring run-off, it is fairly easy to maintain a pasture or grassed area comparatively free from pollution by domestic animals for a short period prior to the spring thaw.

With adherence to the foregoing recommendations, there is little doubt but that the water will be as dependable and safe as that from a well tapping the ground water supply.

LATE BLOOMING LILACS

(Experimental Farms News)
Because of their hardiness, drought resistance and beauty, lilacs are commonly used to beautify the grounds around prairie homes. The French lilacs (vulgaria) are often the only kind used because they provide a wide range of colour. Unfortunately, the French lilacs come into bloom the latter part of May and frequently have their blossoms destroyed by frost which comes too frequently at that time. This disappointment can be greatly relieved by adding later blooming lilacs. Unfortunately, however, these are not so well known, says G. D. Matthews, Superintendent, Dominion Experimental Station, Scott, Sask.

Chinese lilacs (villosa), which do not sucker, come into bloom before the common lilacs have finished, thereby missing the late spring frosts, and usually carry bloom into July. The Chinese lilacs are one of the hardest and, although a tall grower, will usually start flowering the year after planting. Flowers are pink in the bud but become paler in colour as the flowers open.

Amur lilacs usually do not show bloom until the latter part of June and extend into July. These are distinctive with their smooth, brown bark and highly scented, creamy white flowers, but are not destined to reach a high degree of

popularity for the decoration of the home grounds.

To carry bloom well into July and obtain the essence of perfection desired in lilacs a selection of Preston hybrids is suggested. These are available in a range of colour from clear pink to rich wine, red and even deep purple. Not only are the flower clusters large with blooms of a good substance, but the freshness of colour is maintained for a long time in some varieties. These qualities combined with an absence of suckering are found in Preston lilacs which were originated by the Experimental Farms Service of Canada and have received world-wide recognition.

30-30
Ocean waves reach a height of 50 or 60 feet off the Cape of good Hope.

The man who makes every minute count often becomes the man of the hour.

Simplicity, truth and persistency are three factors that build success in advertising.

"SHOP AT HOME"

Carmangay merchants endeavor to give their customers the best in shopping satisfaction, and district residents are becoming more and more conscious of the benefits of shopping in their own community. "Shop at Home" is an invitation to Carmangay and district residents to take advantage of the excellent service offered by their own merchants. Try them first for your needs—they appreciate your patronage.

B-A Service Carmangay

There is no type of automobile servicing that the B-A Service in Carmangay is not prepared to handle efficiently and promptly. This place of business handles a complete line of B-A products and renders a service that is second to none in this community.

The B-A Service is under the management of the proprietor, Mr. Wayne Ruggles, who took over the business from Nielson and Sparks in May 1948. Mr. Ruggles has had years of experience in automotive work, being previously associated with a garage and service station business in Bluffton prior to taking over his present business.

This place of business is equipped to give your automobile a complete service. If your car is in need of repair, they can give it whatever attention it needs. Their service includes just about everything from making the smallest repair or adjustment to completely overhauling your automobile.

Visit the B-A Service in Carmangay and acquaint yourself with their exceptional up-to-the-minute service.

Mr. Ruggles is to be commended on the efficient service that he is rendering to the motorists of Carmangay and district.

M7044—PHONES—M7034

WITH THE District Agriculturist PETER JAMIESON

SOIL CONSERVATION—

Part Two:

We have received many favorable comments on Professor G. N. Ruhnke's address and are thereby encouraged to give a further portion of his argument. It continues: "The need for more efficient soil management grows greater each season. From the standpoint of good farm practice, and agricultural economics, an all out program for soil improvement should be undertaken when prices are high and the farmer can set aside some of his income for this purpose. For proper use, the soil must be managed in such a way that it produces the maximum crops with the minimum impairment of its physical, chemical and biological properties.

A prerequisite to planning soil conservation programs is an understanding of the basic problems which must be solved in the areas under consideration. Too many have the impression that soil erosion is a universal problem and that measures for its control are the primary concern in all land use and soil conservation programs. Geological erosion of the land surface does, of course, go on everywhere, and although a perfectly normal process, can be a very

damaging factor. But we are concerned with what is termed accelerated erosion, brought about by misuse of the land and mismanagement of the soil. The seriousness of accelerated erosion of the soil.

The seriousness of accelerated soil erosion should not be minimized or overlooked. Certainly we cannot build up or maintain the fertility and productivity of a soil if we cannot hold it in place.

Erosion problems separate, roughly into two types: (1) those caused by run-off water, and (2) those caused by wind. The incidence of water erosion is influenced by the climatic factors of temperature and precipitation, the texture of soil, and the slope of the land. Areas of higher precipitation and higher mean annual temperature have more serious soil erosion than areas of low precipitation, or of low temperature, or both. The distribution of the precipitation between rainfall and snowfall is also an important factor determining the amount of surface run-off. Long, steady winters, during which the soil is frozen and protected by a deep blanket of snow, are another factor in lessening the intensity of soil erosion. Wind erosion is influenced by climatic factors as well, being more severe in the drier regions; open plains of lighter textured soils seem particularly susceptible.

Under such conditions, a system of contour tillage strip cropping and even terracing may be necessary if the land is to be used for rotation cropping. Detailed surveys and carefully prepared plans for individual farms are badly needed if Canada is to have an integrated soil conservation program.

Although some conservation enthusiasts feel that contour ploughing is the single solution to the problem of eroding lands, it, alone, is not sufficient to control soil erosion.

What are the facts? Since the most serious water erosion takes place during the growing season, it is absolutely necessary, in addition to contour ploughing, to practice alternate strip cropping. Seeding cultivation, and harvesting operations must also be undertaken on the contour. Since the laying out of a system such as strip cropping or diversion terraces on the contour requires considerable technical training and experience, the farmer who requires such control measures must have help from qualified soil conservation advisory services. He will need a specific plan tailored to suit the problems of his own land, if it is to be effective, and to warrant the cost and inconvenience of swinging over to the contour tillage system.

(To be Continued)

HERE'S TO A SAFE AND SANE HOLIDAY

Vacationists can do much to assure themselves accident-free and disease-free holidays this summer, the Health League of Canada states in its annual vacation-time message to citizens of the Dominion and tourists from the United States.

The Health League lists as important reminders, the following "safe and sane" vacation hints—If you are a non-swimmer avoid deep water and stay out of a canoe! No one should go in the water immediately after eating!

Learn about artificial respiration—you may save somebody's life! Make certain your vacation milk supply is pasteurized—if the commercial product is not available, pasteurize it yourself! Home pasteurization information may be obtained from the Health League of Canada, 111 Avenue Road, Toronto Ontario.

Be sure your water supply is pure!

Take the sun in easy doses—sunburn is a real burn!

Learn what poison ivy looks like—then avoid it!

Avoid over-exertion particularly if you are unaccustomed to strenuous exercise.

In hot weather use more salt in your diet!

Take precautions against possible food supply contamination by flies and rodents.

NET INCOME OF CANADIAN FARMERS REACHES NEW HIGH

Net income of Canadian farmers from farming operations in 1948 reached a total of \$1,693,315,000, the highest figure recorded since 1938 according to figures issued by the Dominion Bureau of Statistics. The previous high total was \$1,234,909,000 in 1947.

Farm cash income from the sale of farm products also established an all-time high record of \$2,449,865,000 last year, and there were further increases in the value of home-consumed farm produce.

The decrease in the value of farm-held livestock at the end of the year more than offset some increase in the value of farm-held grain. However, the decrease was insufficient to offset the gains in cash income and income in kind, and the gross income for 1948 also set a record.

Family Allowances (the Baby Bonus) are now costing the Canadian taxpayer \$525.00 a minute.

New Highway Signs Erected

Erection of new route marker and directional signs, designed to expedite traffic movement over main highways of the Province, is now being carried out by the Highways Branch, Department of Public Works, according to J. McQueen, Superintendent of Maintenance.

Similar in general appearance to signs formerly in use, the new signs, featuring Scotchlite symbols and numbers provide a much greater measure of assistance to night motorists. The Scotchlite treatment causes the signs to reflect light from approaching vehicles while still a considerable distance away and provides ample warning of road contours for drivers. Eighteen different symbols in the new series ensure adequate

coverage of the various road contours.

To date almost 6,500 directional signs have been erected on highways number 1, 2, 3, 4, 5 and 16, and according to Mr. McQueen another 12,000 will be needed to cover all highways in the Province. In addition, some 2,500 route marker signs also will be erected. Directional signs are 24"x24"

while the route marker signs are rectangular and slightly smaller. Both types of sign are made of heavy metal and bear the conventional black-on-yellow color scheme.

The route marker signs are surmounted by the Provincial arms. Contract for manufacture of the new signs, which range in price from \$1.35 to \$10.10 per sign, is being handled by Westeel Products Limited.

The population of Newfoundland, 320,000, is less than that of Greater Vancouver.

Guide Zamballa brought back a 5 passenger Monarch coupe from Calgary.

On Sunday several motored to Carseland for a day of fishing.

Mr. and Mrs. Jorgan Henrickson, Mr. and Mrs. Floyd Standaard and Mr. and Mrs. Leonard Huff were visitors to Lethbridge on Monday.

Clifford Kock is the carpenter, remodeling Jack Gerhan's house.

Lomond played a strenuous game on Sunday, defeating Scandia by one point, the score being 15-15.

E. E. Batten, R. N., has been at Travers giving the children around that district inoculations for scarlet fever.

ENSIGN

Last Monday evening, June 20, the Ensign Ladies Community Club held a supper in the hall, honoring the fathers on Fathers Day. A delicious supper was served at 6:30 p.m. to some 34 including the members and their husbands. A toast to the fathers was made by Mrs. H. Parker with Curley Collison responding. Later in the evening bridge and whist were enjoyed with firsts in bridge going to Mrs. B. Brown and Mr. Ed Kennedy. Firsts in whist being won by Mrs. Freddie Markert and Freddie Markert. Those on the committee for the arrangements of the supper were: Mrs. A. McIntyre and Mrs. E. Kennedy.

The Ensign Ladies Aid met at the home of Mrs. A. Finlayson on Wed., June 22, with nine members present. It was decided that there would be no meetings held during the months of July and August. The September meeting will be held at the home of Mrs. Collison.

Mr. and Mrs. Bill Turley accompanied by their niece, Miss Pay Turley of Nanton, left on Monday on a motor trip to parts of the U. S. and to Vancouver where they will visit with Mr. and Mrs. W. S. Barker, formerly of this district. Pete Flebotte was a business visitor to Calgary last week.

Mr. and Mrs. B. Brown and Betty left Sunday morning by car for a vacation to Nanaimo, Vancouver Island, where they will visit with their daughter, Mrs. J. Tuck and family.

Miss Betty Lou Turkey, who spent the past two weeks in the district, has returned to her home at Calgary.

Mrs. Russell Markert has returned home after spending the past three weeks in Ontario.

EASTWAY

A miscellaneous shower was held at Union Jack School on Thursday afternoon, honoring Miss Lorraine Goldthorpe, whose marriage to Kenneth Stumpf, takes place on July 6. After a pleasant social hour a basket laden with gifts was presented by Mrs. W. Marshall, who expressed the good wishes of all. The guest of honor was assisted in opening the gifts by her mother and sister, Mrs. Martin Hoffman. Lorraine graciously thanked all those present for their kind wishes and lovely gifts. A delicious lunch was served by members of the Eastway Ladies Social Club.

Mr. and Mrs. F. Wyatt are holidaying in Banff.

Sunday School will be at 11 a.m. on Sunday July 3rd.

Children of Grades I, II and III of Mossleigh School enjoyed a picnic at Carseland on Monday.

Those interested will be glad to hear of the shipment of blankets received by Mrs. H. Tharlie from Fairfield Woolen Mills of Winnipeg.

R. Hill and Ed Asplund were Calgary visitors on Thursday.

Mrs. Twiss, Miss Norma McMullen and Leslie, all of Oregon, are visiting at the home of their parents, Mr. and Mrs. W. McMullen.

Dave Lewis of Okotoks was a visitor in the district this week.

RED CROSS

Dave Sullivan is visiting at the home of her brother-in-law and sister, Mr. and Mrs. Andy Knive.

Calgary visitors last week included Mr. and Mrs. A. Giles and R/s Mr. and Mrs. Arthur Cutforth, Mr. and Mrs. Bob Parslow, Mr. and Mrs. E. Plourdi and Mr. and Mrs. Norman Love.

Bud Wood has returned home from Calgary, where he underwent an operation on his leg.

Recent visitors at the home of Mr. and Mrs. Bob Parslow were the latter's sister, Mrs. Stenquist of Lancaster, Minn., and father, Mr. Lyons of Champion.

Mr. and Mrs. Arthur Cutforth and family were Sunday visitors at the home of the former's par-

ents, Mr. and Mrs. F. Cutforth, Barons.

Mr. and Mrs. George Fulton were Foremost visitors over the weekend.

The Home and School sponsored a picnic at High River on Friday for residents of the district and a tour through the Highwood Memorial.

KIRKCALDY**Institute Plans Picnic**

The regular meeting of the Kirkcaldy Women's Institute was held on Thursday, June 23, at the home of Mrs. Bob Middleton with a good turnout of members and one visitor.

Miss Nettie Ware presided, in the absence of Mrs. W. Anderson. Roll call was answered by "How we spend our leisure time."

After a short business meeting Mrs. R. Flitten gave an excellent paper on "Recreation," and the part it could and should play in the Home, School, and Community Life.

The raffle was won by Mrs. S. Bernard and refreshments served by the hostesses, Mrs. B. Middleton and Mrs. R. Robbie.

The next meeting will be held at the home of Mrs. Brown Macdonald during July, in the form of picnic. The new members will be the entertainment committee.

Mr. and Mrs. Henry Todd entertained at a supper party on Monday evening when covers were laid for fifteen guests, namely, Mr. S. Colwell, Miss Kathleen Colwell, Mr. and Mrs. D. MacKay, Miss M. MacKay, Mr. and Mrs. J. Main and daughter, Mrs. R. Sansome and Mr. and Mrs. G. Urquhart and family.

Mrs. I. Haga, and Mrs. B. Dann were joint hostesses on Thursday evening when they entertained a number of friends and relatives at a surprise birthday party in honor of Mrs. P. Clark at the farm home of Mr. and Mrs. Percy Clark.

Mr. C. Gonyea of Calgary is spending a few days visiting at the homes of several friends and relatives in the district.

Mrs. Bert Malsey was elected Constituency convener for a two year-term of the Women's Institute of the Little Bow Constituency at the Conference held in Vulcan on Friday. Congratulations.

Mr. and Mrs. C. Hollister were Nanton visitors on Saturday. Mr. and Mrs. J. O'Reilly and children were weekend visitors at the home of the former's sister in Taber.

Mr. and Mrs. Lorne Malsey and family of Herronton were weekend visitors at the home of the former's brother, and sister-in-law Mr. and Mrs. Bert Malsey.

Friends are sorry to learn, Lynn Spaeth, eldest daughter of Mr. and Mrs. Howard Spaeth is very ill at her home with the red measles.

Earl Brinton of British North Borneo visited at the home of his brother and sister-in-law, Mr. and Mrs. W. Brinton on Friday.

Mr. and Mrs. O. McCurdy of Grande Prairie visited at the homes of Mr. and Mrs. W. Brinton, Mrs. Dora Middleton and Mr. and Mrs. B. Middleton last week.

Mr. and Mrs. Frank Hendry of Calgary, Mr. and Mrs. Bob Hendry of Ontario, and Miss Fair of Calgary were guests at the home of the latter's nephew and niece, Mr. and Mrs. R. Robbie, on Sunday.

Leo Martin had the misfortune to mangle his right leg with the rototiller on Friday, at the farm home of R. Robbie where he is employed. He is a patient in the Vulcan hospital.

The Kirkcaldy Kittens and the Snake Valley Cobras from Berrymond Monday evening with the visiting team winning by a score of 8-4.
